

# 10 Reasons to Choose Blueface

## 1 ONE PROVIDER / ONE INVOICE

Blueface is a high growth, innovative, and dynamic IP telephony services company which is headquartered in Ireland with operations in Ireland, the United Kingdom and Italy. Blueface has leveraged its customised IP platform to deliver a converged service to all customers.

You will receive one simple bill for all your communication services across

MOBILE

LANDLINE

HOSTED PBX

SERVICE CONTRACTS

VIRTUAL FAX

CALL CONFERENCING

## 2 VALUE FOR MONEY

Every business looks at cutting costs where it can, and what business doesn't want to save money? When they make the switch to Blueface, 8 out of 10 businesses save over 40%.

Savings are accumulated through

NO MAINTENANCE OR LICENSING COSTS

NO LINE RENTAL

REDUCED CALL COSTS

NO BIG CAPITAL INVESTMENT

## 3 HOSTED PHONE SYSTEM

PBX

The Blueface Hosted Phone System is the new way businesses are communicating in Ireland. Instead of purchasing a PBX, you can now get a virtual one for free with a Blueface call plan. Using your broadband connection, the Blueface phones will connect into the Cloud PBX to handle all your calls. Blueface's Hosted PBX offers many benefits such as: flexibility, no maintenance or licensing costs, no line rental, reduced call costs, and scalability.

## 4 MOBILE SERVICE

Blueface offers businesses maximum flexibility with our 30 day SIM only contracts. We can supply you with a SIM that allows you to have one extension, one voicemail and one bill. Blueface allows you to easily add more SIMs to the same account as you wish to connect more employees. Blueface is a Mobile Virtual Network Operator (MVNO) using H3G coverage to power our network. With 99% coverage, your business can be truly mobile with Blueface.

**5**

## EASY TO SWITCH

Moving phone service should involve as little disruption to your business as possible. When you switch to Blueface you can keep your old numbers. Simply fill out the Blueface porting form on the customer portal after picking your Blueface plan, and we'll take care of the rest.

**6**

## PLUG AND PLAY PHONES

All the Panasonic phones supplied by Blueface come pre-configured within 3-5 days of being ordered. With this zero touch configuration there is no need to worry about installation and configuration issues, thus saving you time and hassle. You can just simply plug them in and start making calls. This plug and play capability also enables flexi working within your organisation.

**7**

## WORK FROM ANYWHERE

Blueface makes it possible for your staff to work remotely, provides intelligent call routing and allows you to manage your account online. Once you have a broadband connection at home the Blueface phone will work as if it's in the office. Internal transfers, ring groups and all other aspects of the service will work as normal.

**8**

## RESPONSIVE BUSINESS SUPPORT

Irish based customer care team available for accounts and technical support queries throughout business hours and beyond if required. If you have any queries you can contact Blueface on 01 524 2000 to speak to our customer support team.

**9**

## PROFESSIONAL IMAGE

Blueface can enable you to create a professional impression for your company. Your phone lines are one of the most important ways you can communicate with your customers. Having music on hold, an automated welcome greeting, voicemail and your own conference bridge numbers are just some of the Blueface features that help you create the right impression with your customers.
